P.O. Box 839966  
San Antonio, TX 78283-3966

Dear Mr. Garza:

This letter is in response to the letter dated October 15, 2004 from Emil Moncivais, regarding the types and level of service provided during calendar year 2003 to Southside Initiative Expansion area.

This area is located in San Antonio Water System (SAWS) water service area. Attached is a utility map for the area that SAWS serves, indicating the location of water and wastewater mains in the SAWS inventory.

Wastewater service is not currently available in the Southside Initiative Expansion area. Requests for water and wastewater service would be provided in accordance with the Utility Service Regulations.

Existing infrastructure for water and wastewater service in the areas served by SAWS is less than 10 years of age. There have been no maintenance issues and it is anticipated that replacement would not be expected for another 30 to 40 years.

If you have any questions regarding the information, you can contact me at 704-7173 or by e-mail at [drathburn@saws.org](mailto:drathburn@saws.org) or David Lugo at 704-1895 or by e-mail at [dlugo@saws.org](mailto:dlugo@saws.org).

Sincerely,

A handwritten signature in black ink, appearing to read "Dwayne Rathburn", is written over a light blue horizontal line.

Dwayne Rathburn  
Manager, Program Planning  
Infrastructure Planning  
Department
